PURE RELIGION, UNARNISHED DEMOCRACY AND GOOD GOVERNMENT.

TWENTY FIFTH YEAR.

LANCASTER, KY., THURSDAY AFTERNOON, APRIL 30, 1914.

NUMBER 4.

## The "Light" Fantastic

Tango down here and let us give you some light on the subject of EDISON MAZDA Lamps and you'll feel no Hesitation about dancing back home with a full equipment of

## EDISON MAZDA LAMPS

They give three times as much light as old-style Carbon lamps—with the same amount of electricity. Put one in every lamp socket in your home, office, store or factory.

Let us show you.

## CONN BROS.

Lancaster, Ky.

Suckers are "on the riffs".

"Watch us grow," the weeds.

How about oiling the square this summer?

Isn't it about time the ice wagon was starting?

Forward farmers are planting corn, backward ones plowing.

Another excursion to Cincinnati next Sunday will mark another exodus of cooks.

Several more stretches of concrete sidewalks are to be built in Lancaster this spring.

This spring "the young man's fancy" is torn between love and duty, his sweetheart or the war.

How many of our goods box philosophers and war experts will volunteer for the Mexican conflict?

An unprecedented crop of dandelions is in evidence on the beautiful lawns of Lancaster people.

Many fishermen striving for Mr. Adams' reward have let a "big un" that would have taken the prize get away.

The W. C. T. U. District Convention meets at Harrodsburg May 12 and 13. This is a very important meeting and as many as can should attend.

Don't be prodigal in the use of the city water, your monthly rate does not entitle you to sprinkle the lake dry. Remember the scarcity of water last fall.

## NEW OFFICER.

Lee Previtt has qualified as Deputy Marshal and will serve on public days and whenever needed. Mr. Previtt has served in this capacity on several occasions and has proven himself an efficient officer.

## BANK STOCK NOT SOLD.

The stock in the Garrard Bank & Trust Co., which was advertised to be sold Monday by Mr. R. L. Elkin as Executor of the will of the late Zack Elkin, was not offered as the heirs decided that they would prefer the stock to the ready cash.

## WILL ORGANIZE.

At the New Antioch church, at McCreary, a Christian Endeavor will be organized next Thursday evening at 7 o'clock, by the young people of that neighborhood. A cordial invitation is extended to all that a good and full meeting may be had.

## UNFORTUNATE INDEED.

Mr. L. Cobb of the Buckeye neighborhood has had the misfortune to lose three mules and three work horses in the last few months. They died from different causes, fighting, acute indigestion and kidney trouble, being the chief trouble. Mr. Cobb has our sympathy in his financial losses.

## ADJUDGED INSANE.

John Million, aged about 55 years, and who lives near Wallace on the Garrard side, was adjudged insane in the county court Monday, and an officer from the Eastern Hospital at Lexington came from that place for him. Mr. Million had a religious mania and was violent. He has a wife and several children.

## BEGINNING EARLY.

The fish destroyers are beginning their operations early. Last week the waters of Back Creek were strewn with small catfish, suckers and minnows, killed by either dynamite or poison. It is a great pity some of the agents of Fish & Game Commissioner Ward cannot catch some of these miscreants and make an example of them, thereby effectually stopping this kind of work in the streams of this county.

## AS OTHERS SEE US.

In a recent editorial the Cincinnati Post has the following comment and advice as to the present manner of taxation in Kentucky:

"Suits by railroads to enjoin tax assessments made in 1912 are still undisposed of in Kentucky. One case has been heard, but the trial judge states he will not hand down his opinion until all cases are submitted. These cases involve millions of dollars and will probably go through all the appellate courts before the litigation ends.

Taxes are required to run the Government. Small taxpayers for years have been, and in most communities still are, paying on vastly higher valuations, based on selling values, than are public utilities and other big business property. The small taxpayer cannot afford to litigate and he pays up and does it promptly.

Would it not be well to adopt the same rule which the Federal Government does concerning customs and other taxes? That is, compel taxpayers to pay up and sue to recover back, if they claim taxes are unjust. Thus a crimp would be put in the present game of delay of the big fellows.

In Kentucky the pay of public school teachers is unfairly small, and many needed public improvements are held back, because these railroads can withhold taxes for years while litigation winds its slow and expensive course."

## CHEAP RATES.

Tee Woman's Club have inaugurated a cheap rate to Frankfort and return next Saturday. Everyone that possibly can should take advantage of the trip, as the fare will be only \$2.00.

## COURT DAY SALES.

Cap't Am. Hounie, the veteran auctioneer, reports the following sales on last Monday: Plug horses at from \$60. to \$75, sows and pigs \$35. to \$40, some choice cows and calves at from \$50. to \$75., a lot of new buggies at an average of \$64. each.

There was a very large crowd in town, but interest centered upon the horse show to the exclusion of everything else, and a very little trading was done.

## MEETING STILL IN PROGRESS.

The protracted meeting at the Baptist church is still in progress, now in its third week, and the interest is unabated, in fact the crowds are larger as the meeting progresses, on Sunday night the church would not hold the crowds and it was necessary to turn many away. Up to this time there has been about thirty additions. Bro. Beagle is delivering some strong sermons that are proving very interesting, while the music under the direction of Bro. Ellis lends much to the interest of the meeting.

## LOST 27 YEARS.

Mr. James Sanders is having a twenty foot extension added to his store room at Hyattsville, the work is being done by Steve Lewis the hustling colored carpenter. While tearing up a part of the floor one day last week Steve remarked that he lost a hatchet in that building 27 years ago, and scarcely had the words been uttered when the tearing up of one of the planks unearthed the long lost hatchet. The tool was as bright and sharp as when lost and Steve says he intends to preserve it the remainder of his days.

## MR. A. D. BRADSHAW SELLS FINE TEAM.

Mr. A. D. Bradshaw of McCreary this county has sold to Berea College a pair of 5 year old sorrel horses for \$500. It was a handsome team and did much credit to Mr. Bradshaw as a handler of nice harness horses.

## JOHN FORBES IN SOLDIERS HOME.

Letters to friends here brings the information that Mr. John Forbes of this place is sojourning for a short time at the Soldiers Home in Dayton O., where he will remain until he recovers from a recent illness. Mr. Forbes is a veteran of the Spanish-American war, having served under the late Cap't. Samuel M. Duncan.

## SALVATION ARMY OFFICERS HERE.

Several members of the Salvation Army Corps, which is stationed in Danville came over Monday to "work" the court day crowd. They succeeded in gathering a neat sum. These people represent a worthy cause and do much good, reaching a class of people that no one else can reach, and no one should begrudge the small amount they ask as a free will offering.

## OFF FOR K. E. A. MEETING IN LOUISVILLE.

County Sup't Miss Jennie Higgins left Tuesday, while on Wednesday the county Board of Education, together with several of the school trustees of the county went to Louisville to attend the meeting of the Kentucky Educational Association, which is in session in that city. It is expected that there will be in attendance 5,000 people of Kentucky who are interested in the cause of education, and leading educators will be there from all over the country to talk upon educational topics for their edification.

## THE RETURN OF A NUISANCE.

With the arrival of spring weather comes the bands of wandering gypsies who pervade this part of the country under the guise of horse traders. They have wintered in the south, but with the coming of spring return to their summer haunts. One band consisting of about a dozen wagons, go from one county court to the other, and are a source of annoyance all along the route they travel. The men trade horses, and do almost anything, except work, while the women under the guise of telling fortunes, earn the living for the entire outfit by begging or stealing. Several members of these wandering bands have been before the local courts upon grave charges, and should their nefarious practices be resumed, they should be given an urgent invitation to leave this part of the country.

## PLANTS.

I have an unlimited supply of guaranteed variety tomato plants, and will have sweet potato plants in season. Mrs. George Smith Sr.

## WAR WILD

ARE LANCASTER NEGROES Ready For Active Service In Mexico.

The Stars and Stripes do not float over a portion of Uncle Sam's possessions where there is more patriotism to the square inch than in Garrard county. There has never been a call of our country but that our citizens sprang readily and gladly to the fray. The old county is represented both on land and sea, and should the call come for volunteers, many of her sons will hasten to the nearest point of enlistment and tender their services to assist in the wiping out of the insult to the flag.

Nor is this patriotism confined to the whites, among the colored people the war spirit is more rampant than among the whites, their excitement knows no bounds, and every paper is anxiously scanned and every morsel of war news eagerly discussed by them. Their enthusiasm does not stop at the mere reading of the news, they are taking active steps to render military service when the call comes, and hope to have a company of their race in the forefront of the Mexican embroglio. To this end Milton Sneed, the well known painter and decorator, and a splendid musician, is actively engaged in recruiting a company, and as soon as he has secured a sufficient number, will tender its services to Gov. McCreary and ask that they be given the earliest possible opportunity to get to the scene of hostilities. Sneed thinks he will have very little trouble in recruiting a company to its full strength, and hopes to be in readiness when the call comes. He hopes to go himself as an officer, but not being as robust in health as the requirements of the service demand, in the event he can not go with his company as an officer, he hopes to be taken on as a musician.

Colored troops played an important part and acquitted themselves nobly in the Spanish-American war, and they would prove equally as valiant in the Mexican trouble, and should they reach the front, we are confident that "Capt Sneed" and his troops would give a good account of themselves.

## PEACE IN MEXICO PROBABLE, THROUGH KINDLY OFFICES OF FRIENDLY POWERS.

Three South American Powers, Brazil, Argentina and Chili, have offered their kindly offices to adjust the differences between this country and Mexico through mediation. This offer has been accepted, both by the United States and the Dictator Huerta, and the Board of Mediators are now holding long sessions daily in an earnest effort to arrive at a solution of the problem which will meet the approbation of all parties. The demand upon Huerta was that he accept the mediation of the three countries unconditionally: this he at first was reluctant to do, but strong pressure was brought to bear upon him by England, Germany and France, and under stress of this pressure, he consented to allow them to endeavor to find a means of reaching an amicable adjustment of the difficulties.

In the meantime the United States is in no wise receding from the attitude which she assumed a week ago; Gen. Frederick Funston in charge of the "Fighting Fifth" army brigade has relieved the blue jackets at Vera Cruz, and they have returned to their various ships, the marines however, remaining ashore. Funston has hoisted the Stars and Stripes and is now in full control at that point. However, Gen Funston will not remain in control for long, for after a conference between him and Admiral Fletcher it was determined to establish a civil government in Vera Cruz under martial law, and this conclusion having been communicated to Washington and met with approval the formal transfer from military to civil government will be made today.

Robert J. Kerr a lawyer of Chicago and Mexico City will be civil governor, Commander Stickney, U. S. N. will be Inspector of Ports and Customs; William F. Buckley of Austin Tex. and Mexico City, Administrator of Justice and Charles H. Stewart of Indianapolis and Cordoba Mex., Treasurer. Under the new form of government peace reigns supreme in Vera Cruz, and a feeling of safety pervades the atmosphere, both with natives and foreigners.

Pending the deliberations of the Board of Mediators, no aggressive steps will be taken by the United States, unless forced by circumstances to such action.

It is hoped in all quarters that the three countries who so kindly offered their services, and who are striving so earnestly to bring about peace, may be successful in their efforts, but the United States is taking no chances, and active preparations are in progress looking to having everything in readiness should their efforts prove unavailing, and the interim of time during their deliberations will but serve to give us time to become prepared should the inevitable present itself.

**Brace Up, Old Chap; You've Got Spring Fever.**  
Nothing Like ROOT JUICE to Clean Out the Blood and Put New Life and "Pep" Into You. Guaranteed.

"Brace Up, Old Boy! Look What ROOT JUICE Did for Me."  
No wonder you feel tired lazy, "good-for-nothing," aching, "fall in." Your system is clogged up with winter's impurities like a sewer after a rain, a cloud, burst. Your blood is stagnant with an accumulation of poisonous filth and your whole body needs a thorough house cleaning, renovating; you want a toning up, a bracing, purifying, and when you get it you'll feel as spry as a youngster.

That's what ROOT JUICE does, starts right in with the stomach, works up new and stronger digestive power, stirs up the lazy liver and gets the bowels busy; it stops the poisons from entering the blood and then cleans out all that are already there. You'll feel its magic influence upon the kidneys, too, feel it quickly. Your over-strained nerves that are all "on edge" will mighty soon behave again and give you peace.

The best that Nature has given to mankind in the way of medicinal roots and herbs and barks is in this wonder-worker body builder, cleanser, purifier, and it's safe. It will pick you up and make you over, give you a new supply of needed force, vim, strength, fire and "pep" so quickly that you'll wonder how it happened. There never was a better tonic known. Remember, it's ROOT JUICE. Don't let any scheming, unreliable druggist try to palm off something else on you. ROOT is guaranteed. It's got to do the work and satisfy you or back goes your money. You don't have to use a gallon of it, either—a few doses will prove its worth the first day.

**See that joint!**

THAT patented joint has revolutionized the whole business of building silos by making it possible to construct a perfectly solid stavesilo of any desired height. When put together with a little white lead at these joints, a two-piece stave is as good as if it were made of one-piece staves, and very much less expensive. There is no metal at these joints to become corroded by the acids and no outside moisture can collect in them to rot the wood. This joint adds years to the life of your silo and many dollars to its value.

We have a plan by which you can own an Indiana Silo and let it pay for itself out of what it saves for you on next winter's feed bills. Give us a chance to explain it to you.

## SHEPHERD AND FLOCK.

The root crop fed to the flock now will be the key to success, says the Farm Journal. Roots go a long way in giving tone to the general health of the flock. If you haven't enough clover hay for all winter save it for the time when the lambs come.

Roots fed with the grain make both doubly valuable.

It is poor economy to feed timothy hay to sheep.

Sheep are the most timid and nervous creatures, and fear or nervous excitement is always very damaging.

Fill up low places in the sheep yard, and tolerate no wet or icy places where the sheep exercise.

## CARE OF HORSES' FEET.

Many Excellent Animals Ruined by Improper Treatment.

Good and bad feet are largely inherited in horses, yet very often good feet are ruined by bad treatment, writes J. L. Buchanan in the National Stockman. If colts are foaled with crooked feet and especially if the hind feet turn over sideways you can soon remedy this trouble by keeping inside of bottom of foot rasped down and the cut back a little, leaving the outside alone. A few trimmings will make the foot straight. Thus every producer of horses should be the owner of a good horseshoer's rasp and use it when needed.

While horses are going without shoes a good rasp should be kept close at hand so all irregularities of feet may be kept rasped off. The feet of horses allowed to stand too long on a dry, hard floor or on a pile of heated manure are apt to get too dry and hard, in which case I should recommend a little fish oil rubbed on the upper edge of the hoof just at the edge of the hair, not over the shell of the hoof, because it would shut the air and moisture out. If put on at junction of hoof and hair the hoof will take up the oil, and it will help to grow and toughen the hoof. I have known horses to stand on hot manure until it hurt all of the lower part of the hoof out.

It is a splendid idea to keep horses on the ground all you can. Continuous

shoeing is ruinous to any horse's feet unless frequently changed. I know of horses allowed to carry their shoes for three months, and some until they are worn off. No wonder so many horses' feet are ruined. We frequently see colts shut in stables for all winter and no attention paid to their feet, and by spring their hoofs are two or three and even four inches too long and pasterns sprung back and toes turned up until you would declare that both feet and pasterns were ruined. Yet when properly trimmed and turned out to pasture they soon come all right.

Blacksmiths often damage a horse's foot by holding red-hot shoes too long at one place and by making shoes too short and narrow, producing contracted hoofs, corns, side bones, etc. Blacksmiths are often in a hurry and sometimes fit the foot to the shoe instead of the shoe to the foot, which is the proper way. Another fault of too many smiths is they do not cut or trim enough from the bottom of the foot and, on the other hand, cut back too much of the shell in order to make the foot fit the shoe, exposing too much of the tissues of the foot, thus allowing water to soak in and oil to evaporate. The enamel or coating of the hoof should not be broken or removed more than possible.

**Warding Off Milk Fever.**

Cows may come down with milk fever during any season of the year on new green grass as well as on winter feed, but the attacks are most common in winter and spring, before turning on grass. One attack makes a cow prone to a second, but that may be warded off by ample exercise and light, laxative rations during the last two months of pregnancy. The cow should be dried off at least six weeks before calving. Feed plenty of bran and flaxseed meal to keep the bowels freely open and make the cow take outdoor exercise every day. Milk the affected teats three times a day, massaging the quarters thoroughly at each milking time, and at night rub thor- oughly with a mixture of one part each of fluid extract of pokeweed and belladonna leaves and six parts of warm melted lard or sweet oil.

**IN THE DAIRY BARN.**

Do not ask the cow to make milk and keep herself warm with the same feed. At least give her a fair chance to be protected from the storms and then let her use the feed for milk making alone.

The cow is a machine that must convert food into milk. This is one reason why she should have such a large middle, for there is the place where the food must be worked over.

Milk that is kept clean and properly cooled needs no preservative.

Comfort is essential to profitable milk production, and a cow cannot be comfortable without good bedding. Don't forget the straw.

It pleases the cow to be milked quickly and gets her in the habit of giving down promptly. It is often the slow milkers that make the strippers.

**THE DRAFT WEANLING.**

Colts Need Feed That Will Develop Bone and Muscle.

Oats, preferably crushed or ground, is the best single grain to feed a weanling colt. Here at the station our weanlings have developed well when the grain ration was two-thirds by weight of ground oats and one-third ground corn, the hay being alfalfa.

When the roughage is anything but a good quality of legume hay it is best to make the grain ration one-fourth to one-fifth bran, says Professor J. L. Edmonds of the Illinois experiment station. It is not possible to state in pounds just the amount of feed that will be required, but good, sound draft weanlings will pay handsomely if fed all the grain that they will clean up three times per day. Good quality of alfalfa and clover are the best roughages. They are growers of bone and muscle.

Weanlings ought not to be exposed to the elements at night or on the stormiest days. Access to a roomy, closed shed or run in four in a roomy box will be found right. The run of a good blue grass field will afford exercise and some feed. Plenty of exercise in the open with the chance to grow a good coat is as essential as feed in making a good frame. Weanlings handled in this manner may look a bit shaggy, but they will do much better than the pampered kind. It is hard to feed too much if the feeding is done regularly and the opportunity for exercise is right. Puffy joints and cocked ankles, unless the tendency is strongly inherited, come from heavy feed and not enough play in the open. Weanlings do better when by themselves, than when running and feeding with older horses.

Grooming when the bedding is plentiful is not much in need under this system. The feet should be regularly looked after at least once a month. A good hoof rasp is the proper tool with which to level up the foot. Don't let the toes get too long and keep the hoof wall slightly beveled on the outside to prevent splitting. Much can be done to remedy faulty conformation of legs by skillful and regular attention to the growing colt's feet. If the stable is clean and free from mites at the setting in of winter there is likely to be no trouble from lice. Free the colts from worms at the beginning of winter rather than wait for the foals to get out of shape generally.

**IMPROVING THE FLOCK.**

Crossbreeding Effective in Producing General Purpose Sheep.

Considering facilities for handling—such as lay of land, feed, shelter, size of flock to run together, etc.—each of the modern breeds of sheep has its qualities, peculiarities, adaptability, and some require more feed and care than others, but all can be used for a special purpose in crossbreeding or breeding up common stock.

The Delaine Merino excels in longevity, also in weight and fineness of fleece; but the lambs are not as good sellers on the fall market as the Down breeds. Yet the Merino blood is the cornerstone of the sheep industry.

The long wool sheep, such as Cotswolds and Lincoln, raise a large marketable lamb, their wool is weighty and coarse and is often discontinued. A cross between these fine and coarse wool breeds makes one of the best general purpose sheep for this country we have.

These half blood sheep shear a heavy fleece of medium wool, which brings the highest market price, and the lambs are better for market under the care of the average farmer than either of their full blood ancestors.

High class sheep are as beautiful in lines of form and style as are fine horses. So, after throwing out ill shaped sheep, the basic principle in studying your flock of ewes is the weight and quality of their wool and the value of the lambs they produce. If the flock is of two or more distinct types it may be necessary to divide it and use different rams until you can cull down and develop a uniform flock, which is most desirable. If your ewes are of good form and size, but shear light fleeces, or if their wool is coarse like the Lincoln or Cotswold a Delaine ram will increase the constitution and shearing qualities of the lambs. If your flock shears well, but ewes are small, get an Oxford or a Hampshire ram. If your dark faced ewes, which you perhaps call Shropshires, are short woolled and light boned use dark faced Oxford or white faced Rambouillet rams.

**Inventor Did Good Work.**  
The De Vick clock, made about 1364, was a good piece of work. In fact, since the year 1700 no important invention has been added to clocks and watches. This means a good deal when it is realized that the last 200 years have given us more inventions than all previously known history.

**She Knew.**  
A chorus girl seeking an engagement at a Broadway manager's office was offered a position in a company booked in one-night stands. Congressman A. O. Stanley will address the Democratic voters of the Paint Lick vicinity at 2 o'clock P. M. Tuesday May 5th in the hall of the county for the democratic nomination for United States Senator.

The democrats should turn out en masse to hear Mr. Stanley, first, because he is a splendid exponent of sound democratic principles, an ardent supporter of President Wilson in his efforts to reform party pledges and give the country a good sound democratic government, second because he is an eloquent speaker, and last because he has proven himself a true friend to that which is close to the hearts and interests of the people of Paint Lick, the tobacco industry. Many of the people of the Paint Lick neighborhood heard Mr. Stanley's celebrated tobacco speech in Lancaster, many of them are conversant with his attitude toward the tobacco interests in the state, many of them know just how much Mr. Stanley has accomplished in behalf of the tobacco growers of Kentucky, never missing an opportunity to do everything within his power to advance their interests.

We believe Mr. Stanley is the most logical candidate for the Senate, he has made a splendid record as a member of Congress, and we believe his sphere of usefulness would be widened by sending him to the Senate. We believe that when the good democrats of the Paint Lick neighborhood hear Mr. Stanley that they will come to our way of thinking. He is making a very aggressive campaign, he has made many speeches throughout the state and will continue to make them up to the time of the primary election. Mr. Stanley has been attacked by many of his, let us say those who are opposed to his candidacy, and upon every occasion has come through the ordeal with flying colors, each attack seeming to intrude him more securely in the estimation of the people, and his following has grown steadily from the beginning of his campaign.

Come out and hear him, his remarks will be interesting, give them careful and just consideration, and we firmly believe that you will come to the conclusion that Mr. Stanley can better care for your interests than any of the other gentlemen who are seeking the nomination for Congress.

### DAVE SMITH WITHDRAWS LEAVING ONE LESS CONTENDER For Senatorial Nominations.

Ex-Congressman Dave Smith who has for some time been an announced candidate for the senatorial nomination has announced his withdrawal from the race in the following card:

"With good will toward all and with profound gratitude to those who have been for me, I now retire from the Senatorial race."

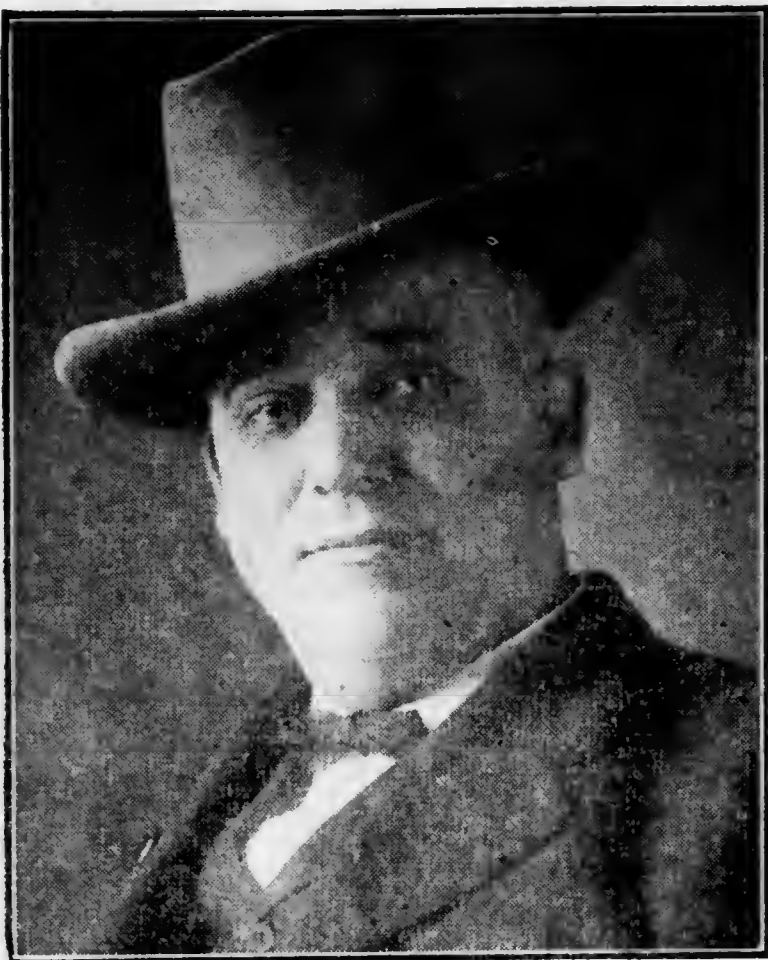

This leaves the race between Congressman A. O. Stanley, Gov. McCreary and Ex-Governor Beckham, and the race is now on and will become more and more heated until the primary on August 4th.

### HEAVY LOSS OF LIFE.

Follows Gas Explosion In West Virginia Mines.

As a result of an explosion of gas in New River Collieries Co., mines Nos. 5 and 6 at Eccles W. Va., Tuesday afternoon, eleven miners are known to be dead, 59 rescued, all seriously burned and two hundred others are entombed in the burning mines, not one having escaped since the explosion. Government and state and volunteer rescuing parties are madly seeking to rescue the entombed men, but because of the extreme heat, little progress is being made and it is greatly feared that the men will all be dead before the rescuers can reach them.

The new River Co. employs about 1500 men in the two mines where the explosion took place. Two car loads of coffins have been ordered from Cincinnati. The Governor and other high officials of the state are at the scene doing all they can to assist in the work of rescue. Scenes about the burning mines are heart rending. The recent enacted Workmen's Compensation Act provides \$20. per month for the widows of the dead men and \$3. per month for children not exceeding three in number.

Congressman A. O. Stanley will address the democratic voters of Paint Lick at 2 o'clock p. m., Tuesday, May 5th. On Monday the 4th, he will be at Waynesburg, Lincoln Co., when he will speak to the voters of that county.

### THE NEW STATE HOUSE EVERYONE SHOULD SEE IT

Take Advantage Of The Cheap Rate To Frankfort.

When the Legislature of 1904 met the State of Kentucky was practically out of debt, a bill appropriating \$1,000,000 for the purpose of erecting a new State Capitol passed that body with but one dissenting vote, and a commission to carry out the provisions of the act was appointed. The result was one of the handsomest, if not the most handsome, in the United States, contains two hundred and seventy-four rooms and apartment, and is something of which every Kentuckian can be proud.

The face-work of the building is constructed of Oolitic limestone from Bedford, Indiana, with a Vermont granite base and rests upon the concrete foundation as solid as the everlasting hills. It is surrounded by an architectural stone terrace, with concrete floor covered with vitrified brick. The outer walls of the building are ornamented with seventy Ionic columns—thirty-two on the front, four on either end and thirty on the back. All of them are monoliths, twenty-seven feet ten inches tall and weigh about eighteen tons each.

The Dome is a close copy of the dome of the Hotel des Invalides, in Paris, France, and in the center of the rotunda is a circle representing the position of the red Finnish marble sarcophagus containing the ashes of the great Napoleon.

In the center of the rotunda, under the dome, rests a magnificent bronze statue of Abraham Lincoln, the martyred President, and greatest of all Kentucky's gifted sons. It is of heroic size, 12 feet from base of pedestal to top of statue, and is the work of the accomplished sculptor, Mr. A. A. Wienman, of Boston, pupil of Augustus St. Gaudens, author of the celebrated Lincoln statue which stands in Lincoln Park, Chicago. This was presented to the State by Mr. J. B. Speed, of Louisville, at a cost of \$25,000, and is pronounced by experts to be more perfect than the Chicago statue.

For elegance of finish the Corridors, Stairways and Nave are surpassed by no State Capitol and are equalled by few.

The lunettes of the nave are ornamented with handsome oil paintings, which are exceedingly interesting, and treat of early events in the history of Kentucky.

State Reception Room is one of the most beautiful apartment in the building, the design being of the Louis XIV period, and resembles very much the Public Reception Room of Queen Marie Antoinette, in the Palace at Versailles, France.

It is handsomely furnished with hand-carved Circassian Walnut, the walls are decorated with hand-painted cartoons of the Gobelin Tapestry and the hard-wood floor, covered with a rug of the French Elanc quality, manufactured especially for the purpose. This room represents an expense of \$9,300—the furniture and window hangings costing \$5,000, the wall decorations \$2,200 and the carpet \$1,800. This latter was woven in Austria, the work requiring four months' time, and it is so heavy that the loom was broken three times. It is 16x54 feet and weighs 1,027 pounds, is said to be the largest specially designed rug ever woven, and the most splendid specimen of the Louis XIV period extant in the United States.

At the south-west angle of the first floor are located the apartment of the Historical Society, where are displayed the portraits of all but six Governors

of the State as well as of Boone, Kenton and other distinguished Kentuckians, articles of historical interest, old manuscripts, etc. Here hours can be profitably spent, in comfort and with pleasure.

Everyone should see the many beautiful features of this beautiful building the half of which we cannot tell. Besides all this you can visit the new Governors' Mansion, the penitentiary and other points of interest. It will be a day profitably spent and one that will be of educational value to both old and young.

### PROF. ROCCO GRELLA WITH ELEVEN MUSICIANS With Littlejohn's Carnival Company.

Grella's Band of eleven people is with the Littlejohn Carnival Co. which will appear here during the week of May 11th, and will give a free sacred concert in the Park at 4 o'clock Sunday afternoon May 10th. All are invited and should not miss hearing this splendid music.

Mr. Littlejohn says positively that the "High Dive" free attraction will be given this year, by Prof. Cole the best in the business. This company has been in Lancaster on two occasions previous to this and has established a reputation for carrying only the very best attractions, free from anything which would offend, and merits the patronage of the public.

### NO SETTLEMENT RESULTS FROM INSURANCE Conference Held In Louisville.

The conference held in Louisville last week between the state officials and the representatives of the various insurance companies was prolific of no good in so far as a settlement was concerned. Proposals and cross proposals made, were rejected and a settlement of the insurance trouble seems as remote a possibility now as it ever did, and all negotiations looking to an amicable adjustment of the difficulties are declared off, at least for the present.

In the meantime the feeling of uncertainty and unrest continues to exist throughout the state; the feeling of impending calamity because of the imminent possibility of the people being unable at no distant date to secure insurance upon their property, and the resulting depression in business. Merchants are curtailing their orders to a material extent, many of them of their own accord, and not a few of them because of the fact that the wholesale people are not extending credit as freely as was their wont when insurance was obtainable for every dollar worth of goods carried. Uncertainty and unrest of borrowers because of the imminent possibility of the calling in of loans, the possibility of the foreclosing of mortgages, because of the act that no insurance is obtainable upon the property which serves as collateral for the mortgage, and final ruin staring them in the face.

In the meantime the Green-Glenn Insurance Bill, the cause of all of this uneasiness, the measure which was passed over the strenuous objections of so many of the taxpayers of the state, remains upon the statute books, and with no visible inclination upon the part of the officials of the state to shelve it for the time being and permit the insurance companies to return to the state and restore the old time order of business, or to adopt any other means to lift the people of the state from the slough of despond into which they have been cast.

### GARRARD COUNTY'S HISTORIC LANDMARK.

Should the proposed highway over the "Old Wilderness Road" become a fact, penetrating as it would that part of Kentucky described by Theodore Roosevelt in "The Winning of the West" and by Winston Churchill in "The Crossing", many points of interest, worthy of admiration, would be brought to light, as it were, from the obscurity in which they have lain since pioneer days.

The summer pleasure parties that motor so continuously over the Crab Orchard and Lancaster turnpike that on fine days the dust never lies, little know that the knob which projects sheerly near the highway, a scraggly plume of pine a top, about three miles from Lancaster, is crested with a landmark of unusual interest. Here lies the stone foundation of Gilbert Creek church, the first Baptist church organized in Kentucky, and built about the close of the eighteenth century. An ascent may be made by a grassy depression, the bed of the old dirt road, which winds up the hill. Crows caw mockingly above the stark trees, dark leaves are matted among the tombstones a shunt, but one has a keen sense of that sort of delight which sheer elevation gives.

Hill-top greets hill-tops, while below the country spreads smoothly away toward the westward, Lancaster showing pretty in a dip of the land. The foundation lines run about eighteen feet by ten feet, indicating a building touchingly small, a tiny outpost facing infinite savagery.

So long have the stones lain without superstructure that an aged tree stands in the very centre of the enclosure. The graves are close and huddled as in English churchyards, with here and there coffin-shaped slabs bearing ancient dates and family names long unknown in the neighborhood.

When one recalls the stories that have come down from the old meeting-house days, of how the male worshippers went armed against Indian attack, leaving always two brethren on the outside to do guard duty, one appreciates what a point of vantage the hill-top was. Of colonial red brick and white trim, the house must have been a fair thing to see to those who came from the log and frame homesteads for worship.

In a later generation Alexander Campbell and other pioneers of the "Campbellite" movement preached here, gathering early converts to the denominations now known as the Disciples of Christ.—From Louisville Times

### PATTERSON.

Mrs. Mary R. Patterson died at the family residence on Richmond street in this city at 5:15 o'clock Sunday afternoon, and after funeral services at the Methodist church on Monday afternoon, conducted by Dr. E. H. Pearce assisted by Rev. S. H. Politt, her remains were placed at rest in the Lancaster cemetery.

Mrs. Patterson has been an invalid for several years, and during that time the suffering which she has undergone could not have been borne by one with less fortitude than this noble, christian, woman, and yet she was never heard to complain of her sufering or affliction, cheerful to a degree surpassing that evinced by many people in much more robust health, she was ever ready with a cheerful word for those about her. For almost two weeks, it has been thought that nearly every day would be her last, and her snifering during this time must have been intense, still she was never heard to murmur. She often rattled and recognized her loved ones and those about her, and even a day or two preceding her death when it was thought the breath was just about to depart from her body, she smiled sufficiently to recognize her brother Dr. Barton, who came to her bedside from his distant home.

Mrs. Patterson has been a resident of Lancaster for the past 21 years and during this entire time has been prominently identified with every good work that has been attempted, active in church and W. C. T. U. work, ever willing to assist to the best of her ability in these or other good causes. A lady of an unusually bright intellect, and liberally educated, of a cheerful disposition under any and all circumstances, she endeared herself to the people of Lancaster as few people have ever been able to do. She united with the Methodist church shortly after taking up her residence in Lancaster and has since been an active and consistent member. Mrs. Patterson was widely and favorably known throughout the county, through having from time to time assisted her husband in his duties as local agent for the Louisville & Nashville R. R. Co.

Mrs. Patterson was born on August 2, 1862, at Sublette, Ill., and was the daughter of J. B. and Helen Barton. She was married to Mr. G. M. Patterson on May 20, 1885 and to that union was born a child, Miss Grace Helen Patterson of this place, who with her father survives the deceased. Mrs. Patterson is also survived by one sister who resides in Spokane, Wash., and by two brothers, Dr. Barton, of Oak Park Ill., and Mr. John J. Barton, of Sublette, Ill., both of whom are well known in Lancaster, the former having been a frequent visitor and the latter a one-time resident of Lancaster.

A wide circle of friends are joined by the record in extending sympathy to the bereaved husband and daughter.

### BOND ISSUE FAILS IN PULASKI.

The election held in Pulaski on the 24th to vote upon the issuance of \$300,000, bonds for road purposes, failed of the necessary two thirds majority. Nothing daunted by their defeat, the advocates of good roads in the county will call another election as soon as the law will permit, and they expect to follow the old adage "if at first you don't succeed, try again", until the bond issue does carry, and Pulaski is placed upon an equal footing with her neighboring counties in the Blue Grass as to the matter of good roads.

### SWOPE-EDWARDS.

On the night of the 19th inst., Miss Bessie Swope and Mr. Harry Edwards, prominent young society people of the Marksbury section attended meeting at the "Fork." After the conclusion of the services they mysteriously disappeared, and nothing further was heard from them until a telephone message came to their parents from Jeffersonville, Ind., telling of their elopement and their inability to secure marriage license in the Indiana town, and imploring their parents to come to assistance. What else was there to do they telephoned their consent to the issuance of the license, the bride was 17 and the groom 20, and "Smile Keigwin" tied the knot and the happy young couple returned to the parental roof. The bride is the daughter of Mr. and Mrs. Ed Swope and the groom a son of Mr. and Mrs. R. G. Edwards, both prominent families in the lower portion of the county.

### "HORSE IS KING" ANNUAL HORSE SHOW AT TRACT LARGE CROWD TO TOWN MONDAY.

The annual horse show, held each April court, outclassed anything this year ever seen along the same line in Lancaster. More horses, better horses and more people to see them exhibited than have been in Lancaster on court day in many years. The beautiful animals, seemingly conscious of the fact that they were the cynosure of all eyes fairly outdid themselves, and "Casey on parade" never stepped more proudly.

Billy Burton's "Bleucher" was out and made a splendid show, as he always does, and attracted a host of admirers. Frank Foley, of Hacklev had his "High Preston" a handsome son of Carroll Preston on exhibition and he is a handsome specimen of Washington Denmark strain.

Hobnan Brown brought his "Fitzpatrick" a worthy son of Rex Payne, who found many to admire this splendid animal.

Rufus Moss, "Copper King", a beautiful sorrel with three white feet came in for a liberal share of the crowds admiration.

Raymond Hendren won a host of friends for his representative of the Peavine family "Kentucky Stonewall."

"Duke of Denmark" Jr., a splendid stallion was on exhibition by Clarence Beazley and gives promise of great things.

Ray and Amon had "Headlight" a beautiful bay by Red Leaf, a horse well known in this vicinity and the sire of some splendid horses.

Forest Stapp brought out "R. C. Todd" his handsome and speedy descendant of such stock as Dictator, Geo. Wilkes and other well known horses, and made a splendid show with him.

Logan Hubble had "Don Verrick" an always popular horse with Garrard county people.

Dick Scudgers "All Peavine" and J. G. Cecil's "Thistle Doune" and "Chimewood" were among the high class animals from a distance, and they all three came in for their usual amount of admiration.

Taylor Rainey's "Shelbark," Jess Sweeney's "Diamond Dick" and Hughes Aldridge Silver Silks were the representatives of the horse miniature on exhibition and they were as handsome a lot of ponies as ever gladdened a child's heart.

Jackets were much in evidence, and when one familiar with the fine points of these animals looked over the bunch he ceased to wonder why it was that Garrard county was the mecca for buyers of high-class mules, and that the guest mules in the country were bred in this county.

Monday's exhibition demonstrated conclusively the fact that the horse and mule raising industry in Garrard county was by no means on the wane, that the automobile was in no wise supplanting the horse, and the farmers as never before were turning their attention, not only to the raising of stock but to the raising of good stock, and that there was a determination upon the part of our people to make Garrard county one of the best horse and mule raising counties in the best horse and mule raising states in the United States.

Walking Dan, a handsome individual, owned and exhibited by Charlie Creech, of Paint Lick, was much admired for his breeding and saddle qualities.

Elgin, the only Percheron on exhibition, and owned by B. H. Halcomb, of Bryantsville, make a good show and converted many to the breeding of this class of horses.

Mr. R. L. Walker, left Monday for a visit to his mother, Mrs. Frances A. Walker, at Huntington West Virginia. Mrs. Walker celebrated her 40th birthday last Tuesday and is hale and hearty for a person of that age. Mrs. Walker is a resident of Garrard county and is visiting a daughter who lives in Huntington. Wilmore Enterprise.

Mr. W. C. Davis and daughter, Mrs. W. B. Ball were called to Campbellsville by the serious illness of their son and brother, Mr. Sam Davis. However, reports from his bedside are encouraging and it is thought he will soon be sufficiently improved to be brought to his home at this place, until which time Mrs. Ball will remain at his bedside.

Miss Pearl Bettis, who for many years has served as book keeper at the store of Mr. R. H. Batson, has resigned her position, and will take a long and much needed rest before taking up other duties. Miss Pearl is one of the most efficient book keepers in Central Kentucky, and is very popular socially in Lancaster, and her many friends hope that she will not seek employment elsewhere.

The reception held last Monday afternoon by Miss Lettie Mae McRoberts in compliment to her house guest, Miss Margaret Munson, of Medina, New York, was a cheerful affair in its every appointment; the handsome home was embellished with large sprays of lilies and other early flowers, while the dining hall and table decorations prettily indicated the same color combination of lavender and green, the lilies and confections also carrying out the same color scheme; Miss Annie Margaret Elkin was in the receiving line with the hostess, and honor guest, while Mrs. Robert Elkin Misses Jane and Mary Doty assisted in entertaining. One of the most attractive features of the affair was the fine piano playing of Miss Munson who charmed the assemblage with her brilliant repertoire.

Mr. T. J. Price was "at home" to the Woman's Club on Friday afternoon from 3 to 5. A profusion of spring blossoms gave the handsome apartments a gala appearance. In the receiving line with the host were Mrs. T. Curry, the president, Mrs. W. R. Cook, the president elect, and Mrs. Geo. D. Robinson, lately returned from the South. Mrs. John E. Stormes and Mrs. Joe E. Robinson presented the guests to those in the receiving line; little Misses Sallie Cook and Emma Goodloe Gregory presented the card trays; Mrs. F. B. Markbury, vice president elect, and Miss Helen Gill, vice president elect, and Miss Tommie Francis, Secretary and Treasurer elect also assisted in entertaining. The large assemblage of women repaired to their respective homes profuse in their praise of their gracious and handsomely attired hostess.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## Winner on the Track and In the Show Ring Against the Best in the Land.

The only real proof of the individuality and soundness of the stallion is the show ring. It gives McCreary Farm great pleasure to again offer the services of the well-known horses, Thistle Doune, winning race record 2:09 1/4 on the grand circuit and winner of the champion roadster stallion class at the Kentucky State Fair, 1913, and Chimewood, 2:19 1/4 considered by many the handsomest trotting stallion in the world, winner of the trotting bred stallion class at the Kentucky Fair, 1913.

Baldy McGregor 2:46 3/4, who recently sold for \$40,000.00 in Europe and Lassie McGregor, who recently sold for \$10,000.00 in this country, are a brother and sister of Thistle Doune 2:09 1/4, who is himself the sire of Zulu 2:29 1/4 and Madara Doune (2), 2:26 3/4, and who has a large number of colts in training in the hands of Kentucky's famous reismen, Ben Kennedy, and it is confidently expected that a number will race to fast records this year.

Chimewood has the distinction of being more sought after by Government Commission than any stallion in America, and they offered the largest price, \$3,000.00 cash, they offered for any stallion, which was refused.

TERMS are Thistle Doune, \$25.00 to insure; Chimewood, \$25.00 to insure. Mares kept on grass at owner's risk.

Half Brother to Lula Watts (2) 2:27 1/4.

Trotter, Brown Stallion, about 157 hands, foaled 1906.

Standard Registered Vol. 18.

Silent Brook 1979, 2:16 1/2, sire of Billy Burk 2:03 1/2, Meadow Brook 2:06 1/2, Shawby 2:07 1/2, Zerrine 2:07 1/2, Betty Brook 2:09 1/2, Emma Brook 2:09 1/2, Lady Bellbrook 2:10, Butter Brook 2:10 1/2, Silent Brigade (2) 2:10 1/2, Margaret Bathgate (4) 2:11 1/2, etc. Sired dam of Chatty Direct (4) 2:07 1/2, etc. His dam, Jenny Clay, also produced Reddie Clay 2:25 1/2, and was granddam of Prue 2:21 1/2.

Moko 2:45 1/2, sire of Fereno 2:05 1/2 (winner Kentucky Futurity), Brenda Yorke (3) 2:08 1/2 (Futurity winner), (5) 2:04 1/2, Native Belle (2) 2:07 1/2 (Futurity winner), (3) 2:08 1/2 (champion 3-year-old filly) Manrico (3) 2:07 1/2 (Futurity winner), Silver Silk (4) 2:04 1/2, Susie N. (3) 2:09 1/2 (Futurity winner), Gomoko 2:10, Mabel 2:10 1/2, Manchester 2:10 1/2, Momaster 2:11, Silko (3) 2:11 1/2 (Futurity winner) etc. Sired dams of The Harvester 2:01 (champion trotting stallion), Vito (4) 2:09 1/2, Martha Tipton (4) 2:09 1/2, O'Neil (3) 2:13 1/2, etc. Brother to Bumps 2:03 1/2, Baron-D, 2:10 etc.

Bleucher 46153, record 2:24 1/2, trial mile 2:14 1/2, half in 1:06, last quarter in 32 seconds, is a handsome seal brown horse, and will weigh 1100 pounds. He greatly resembles his good sire Silent Brook and is out of Clayo, by the great Futurity sire Moko. A grand combination of two of the best race horse families of the present day. He being a real race horse himself, having had very little training and most of that by an amateur. It certainly looks like this horse is of Grand Circuit caliber, and if given half a chance he will win his share of the money sure.

BLEUCHER is a perfect type of a road horse, good gaited with perfect manners, wears no boots or weights. He has an undefeated record in the Stallion Road Class for 1913, and is conceded by good judges to be the best road horse out this year.

This is a good opportunity for Garrard and adjoining counties to breed in to the best families of the trotting blood. Look this horse's breeding over and see how many they have in the list both sire and dam.

This great trotting Stallion will make the season of 1914 at my stable in Lancaster, Kentucky, at

**\$20.00 To Insure A Living Colt.**

Lien prepared to take care of mares on grass at 10cts per day. Lien retained on colts for service fee. Money due when mare is traded or parted with. Care taken to prevent accidents but not responsible should any occur.

## Kentucky's Choice 3765.

Foaled 1905

**At \$75.00 To Insure A Living Foal.**

KENTUCKY'S CHOICE 3765, Sire My Own Kentucky, by Chester Dare 10. 1st dam, Little Kate 5821, by Prince of Denmark 425.

2nd dam, by Jupiter son of Commodore.

3rd dam, by Stump, the Dealer 92.

1910 show record, 35 first including 8 championships, 1911 show record, 41 first including 15 championships and 2 grand championships. 1912 only made 20 shows, winning 16 firsts, including 3 champions, 3 seconds and 1 fourth. 1913 shown 10 times, winning 10 firsts. Has won first for the past three years at Lexington in breeding and herd classes. He won first in 1912 and 1913 at Kentucky State Fair in the class for best stallion in service, defeating in 1913 his full brother, Kentucky's Best. Kentucky's Choice has headed the winning herd at the Kentucky State Fair for the past two years. He is today America's greatest Saddle Stallion, not as a matter of opinion but as a demonstrated fact. Sire of Imperator Rex, which sold at 15 months for \$1500, again before two years old for \$3900, the highest price ever paid for a Saddle-bred colt of the same age. Sire of Richard de Lion, won more prizes than any yearling out last season. A 1914 foal, dam Edna Mae, has just been sold for \$1500 to Mat S. Cohen and James Gay. This colt to be delivered in October.

At the Danville Fair, Kentucky's Choice and his get won the class for the best horse and five of his colts, Kentucky's Choice colts won every first prize given for Saddle-bred sucklings at both the Danville and Stanford Fairs, including stakes at both places and were high up in the ribbons at the Blue Grass and State Fairs, the only other places where shown. Mares pastured at \$3.00 per month, grain fed at \$2.50 per week. Ship mares to me at Danville over the Southern and C. & O., to Parksville over the L. & N. All mares will receive my personal attention and all care taken to prevent accidents but not responsible should any occur. For further particulars, address

JOE McDOWELL, Agt., Danville, Ky.

We have for sale some nice two years old and yearlings in both Stallions and Fillies, sired by Kentucky's Choice, out of dams by such sires as Chester Dare 10, Rex Peavine, Highland Denmark, Chester Chief and Dignity Dare. A few select brood mares in foal to Kentucky Choice.

## Kill The Catarrh Germ-- Use Hyomei.

It's the direct-to-the-spot method--you breathe it. Do not delay and continue to suffer from catarrh, head colds, bronchitis or sniffles. It is not only needless and annoys your friends, but dangerous to your general health.

Begin the Hyomei treatment at once. It is one of the easiest, quickest, and surest ways to clear the head and quickly and permanently banish catarrh.

Hyomei being medicated air immediately reaches the sore and irritated membrane and tissues--its antiseptic and germicidal healing begins at once.

You will surely like Hyomei--its relief if not only immediate but lasting. Money refunded by R. E. McRoberts if you are not satisfied.

Get the complete outfit--\$1.00 size. Druggists everywhere sell Hyomei.

A Good Jack, and a Stud Pony to make the season at

## TINKER'S RETREAT.

Hyattsville, S. H. ALDRIDGE, Proprietor. Kentucky.

## OLD BLACK JOE.

This Jack is 3 years old 15 hands high not up on stilts, but stout built, good body and bone. He is by Old Huger, the Jack the Burton's stood, and has as many good mules to his credit, as any Jack in the county. The dam of this Jack is John Morgan bred, and traces back to such famous sires as Beecher, Prime Minister and Joe Blackburn.

## SILVER SILK.

A beautiful black and white spotted pony, 54 inches high, good style and action, is sired by Sana Cecilia's pony who has as many blue ribbons to his credit as any pony in Boyle county. His dam is an extra good pony mare and he certainly shows good breeding. They will stand at

**\$8.00 Each To Insure A Living Colt.**

A lien will be retained on all colts until season money is paid and the season is due from the man who bred the mare, if sold or parted with. Care taken to prevent accidents but not responsible should any occur.

Registered Hampshire Hogs for Sale at All Times.

## Alexander Stamp, 12696.

Foaled April 12, 1906, bay blaze and three white feet, sired by William Stamp, 3740.

Dam Sally Hamilton, 12426. This is an awful good breeding Clyde breeds, good form, broad and close to ground. Just the horse to get work and brood mares from.

Recently I met a Ranchman from South Dakota who bred over 100 mares yearly and he said "The Clyde Horse was the only draft he could get, that would get him a saleable horse from a Texas pony mare up." This means a great deal as our horses are too small as a rule for work or good mule mares. This horse has proven as sure as any horse I ever kept for service.

**\$12.00 TO INSURE.**

I will also at same time and place stand Two Black Jacks, 15 and 15 1/2 hands, standard, as much bone, foot, head and ear as Kentucky affords with lots of weight, both sound and prompt. Look at the above stock before breeding.

**Jacks Stand at \$10.00 To Insure.**

These Jacks were bred in Nelson County, Kentucky, and by what was known as the Bivion Jack, considered by all who know him to be as great as the greatest. He was 16 hands high. Dam of older Jack was by Governor Wood, a great one. I guarantee satisfaction when your colt comes. Above stock will make the season of 1914 at Buena Vista, Ky. A lien retained on all colts for season money. For further information apply to

G. H. RUBLE, Agent.

SEASON 1914.

## CHIEF NAPOLEON, No. 5107.

This royal bred Jack will make the season at my place at \$10.00 for horse mule, \$12.50 for mare mule, \$20.00 for jennet colt, \$40.00 for Jack colt. Chief Napoleon is by Hill Napoleon, 3rd, No. 3706, 1st dam, Ky's Best, 2654, by John Morgan, Sr. 1954. 2nd dam Joe Blackburn 1454, by Daisy, 1215. Hill Napoleon 3rd, by Baughman Napoleon, 2nd, he by Napoleon 1796, he by old Napoleon, 1436. Hill Napoleon dam Missouri Queen, by Senator Beck 2449, by Daniel Boone 1456. I consider this the best young Jack I ever owned. He has served only two jennets and both are with foal. He is 15 hands high, black with white points.

I will also stand another fine Jack

**Beecher Morgan.**

**At \$6. for Horse Mule and \$9. for Mare Mule.**

He is 15 1/2 hands high, black with white points and a fine individual. He was sired by John Morgan 2705, (T. O. Hill's champion Jack) Dam Nannie B. 2653, by Old Beecher, the greatest breeding Jack of his time.

## Dorsey Gold Dust, Jr.

Kentucky's finest Saddle Stallion will make the season at my stable, one mile East of McCreary and six miles East of Lancaster at the very low price of

**\$10. to Insure a Living Colt**

He is a rich chestnut in color, about

16 hands high and weighs about 1,200

pounds, with fine mane and tail and

plenty of bone and substance, with lots

of natural style. He has racked quarters in forty seconds and stepped just as fast in harness, both in trot and pace. He is bred in the purple, being by the great Dorsey Gold Dust, 12052. He is a full brother to Estelle, by Zicada Gold Dust, 4400, he by Gold Dust 150, he by Vermont Morgan, he by Justin Morgan, he by old Comet Morgan. 1st dam Peavine 85, by Young Diamond, he by Diamond Denmark, he by Washington Denmark. He has proven himself a champion breeder and has shown some of the best colts in Central Kentucky, ranging in price from \$125.00 to \$150.00 as weanlings. His books are filling fast. Visitors are welcome at all times.

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All counterfeits, imitations and "just-as-good" are but experiments that trifle with and endanger the health of infants and children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

INTERNATIONAL Harvester manure spreaders have a score of good features in their construction. Each one is the result of careful field experiment. An IHC spreader is low enough for easy loading, yet it has plenty of clearance underneath. The rear axle is well under the load, rear wheels have wide rims and Z-shaped lugs, insuring good traction under all conditions. Frame, wheels, and all driving parts are of steel. Apron tension is adjusted by a simple device. Winding of the beater is prevented by large diameter, and beater teeth are strong, square and chisel-pointed. International manure spreaders are built in several styles and sizes, low or high, endless or return apron, for small farms or large. Examination will show sturdiness of construction in every detail. Repairs, if ever needed, may always be had of the local dealer. Examine International spreaders at the dealer's. We will tell you who sells them, and we will send you interesting catalogues.

Solitary Fly In  
April May Cause  
An Epidemic

SWAT the fly now! The torpid, lazy moving insects are beginning to emerge from their winter quarters. They are to be the progenitors of trillions of epidemic makers. The menace which annually faces mankind through the activity of these distributors of germs and disease may be reduced, but only through the striking of a telling blow at the insects before they have had a chance to develop.

The wonderful reproductive capacity of this breeder of pestilence is the reason advanced why householders should begin an immediate fly swatting campaign. A solitary fly in April may seem a harmless thing, but if left undisturbed it may cause an entire community to be gripped by pestilence.

Health experts are beginning to realize that if flies are to be destroyed they must be attacked when they are least able to combat their natural enemies, and this is in the early spring, when food is scarce.

The close relation of cleanliness campaigns to the fly exterminating propaganda has begun to be appreciated, and for this reason many municipalities already have commenced or are preparing for sanitary crusades. It has been demonstrated that the more filth that is removed from a city the greater difficulty is placed in the way of the development of the insect disease spreaders.

## Chance For Mighty Swat.

IT takes countless numbers of swats to make even the least impression on the billions of flies that infest the country. There's a better way. One can annihilate trillions of flies with one swat if one goes at it right. If there is a female fly enjoying the spring in your kitchen or attic or basement she is due to hatch out six or more hatches of eggs, over 100 eggs at a time, if she lives, and all of her youngsters are the most prolific creatures on the map. A fly expert has figured it out that from a single female fly trillions of the dreaded typhoid flies may claim descent in one season, provided, of course, that all the young flies grow up.

By swatting Mrs. Fly now you save yourself the trouble of killing her descendants this summer.

**The Rich Grow Richer.**  
A St. Louis plumber has fallen heir to \$500,000. What does any plumber need of an extra \$500,000?—Los Angeles Breeze.

**Historic Beard.**  
The longest beard recorded in history was that of John May, painter to the Emperor Charles V. Though he was a full beard, it is said that his beard was of such a length that he could read upon it. He was very vain of his beard, and fastened it with a ribbon to his hatband, and sometimes he would make it by command of the emperor, who took great delight in seeing the wind blow it in the faces of his courtiers.

**Queen Toothache Cure.**  
As a cure for toothache, Mr. D. A. Newell told the Dorset (Eng.) Antiquarian Field club at Dorchester recently, a Dorset farmer two or three years ago recommended a friend to put his arm round a young oak tree, mark the place where his fingers met, and there make a slit in the bark. Then with his right hand he was to pull some hair from behind his right ear and put it in the slit in the bark.

**Improved on Old Superstition.**  
The first time pigs cross your threshold make them jump over your pants' belt, or your wife's garter, or the maid's apron; then they will come home regularly. A plan now in use among up-to-date American farmers is to keep the pigs in regular pens and feed them twice a day. It is regarded as a scheme more popular with the wife and the maid. The other way is recorded as being a German one.

**Touching.**  
A teacher trying to impress on her children the rightness of kindness toward all animals, took them for a walk to bring the lesson home to them. Hearing a scream from little Johnny, she asked: "What's the matter, Johnny?" "I've been sitting on a hornet," was the tearful response, "and I'm afraid I've hurt the poor thing."—Delineator.

**Worth Knowing.**  
There are 315 ways of changing a quarter of a dollar. The pieces used are the 20-cent piece, ten-cent piece, five-cent piece, three-cent piece and the one-cent piece. To make all these changes without using the same coin twice would require 1,228 one-cent pieces, 614 twos, 378 threes, 184 fives, 69 tens and nine twenties, making 2,684 pieces, worth \$53.76.

Mr. J. B. Woods, of Paint Lick, has a splendid work horse and a lot of 'Rye in bundle; he will sell cheap. Write him.

**Pities Man's Delusion.**  
Every time a spinster looks at a man who has just been led to the altar by a widow she says to herself: "How easily you poor men are fooled!"—Exchange.

**They Go Together.**  
"Shakespeare says there are sermons in stones," "And object lessons," added the militant suffragette, "in windows."

**Looked Weathered.**  
"Fresh Paint," said a sign on the front of a big building entrance. A passing pedestrian who glanced at it and at a girl of very fashionable complexion standing just under it, remarked: "It may be fresh, but it looks to me as if she had had it on over night."

**Probably Provision of Nature.**  
We do not know why white is an almost unknown color among small birds, possibly it may be a wise provision of nature for protective purposes. A white bird among green leaves would be a very conspicuous object, and too easily seen by its enemy, such as hawks, falcons, etc.

**Amateur.**  
"Some salubrious folk in this town are always throwing the game of poker at our unoffending head," says a Georgia editor. "We want to say, once for all, that we don't know the game. If we had known it we'd be richer, at this writing, by a house and lot, a gold watch and chain, and a real diamond stud."—Atlanta Constitution.

**To Hang Pictures.**  
Pictures are hung preferably nowadays without long pieces of wire dropped from a molding, except in the case of extra large and heavy ones. They should be hung flat against the wall, and small pins or hooks that hold firmly and do not mar the wall may be had to effect the invisible hanging.

**Baseball Merely an Infant.**  
When we consider that cricket was played in the reign of Queen Elizabeth and that tennis was popular when Catherine de Medici was in the height of her power, baseball is merely in its infancy. Football was popular with the Greeks and Romans. They actually played it in much the same form as soccer is played today.

**The Young Idea.**  
A high school freshman, asked to recite on the life of Alexander the Great, extemporized as follows: "Alexander was a quick-tempered man. Once when he had taken too much wine he got angry at his best friend and killed him. Alexander was very much grieved, and did everything he could to help bury his friend."
